Independent Americans for U.S.A.

The IAP [Stands In Honor](#) of The Declaration of Independence
- American Liberty Is Inseparably Connected To Our Motto "[In God We Trust](#)" -
For The Cause of Liberty, we support law and order under the Constitution

**The backbone of law and order in the United States of America
is the people's respect for the laws of our liberty
the United States Constitution.**

Fellow Americans,

Next to God and family, law enforcement officers are some of our best friends for protecting our rights of law and order.

A few of us who believe in God, freedom and in our American constitutional law and order, promote increased recognition and appreciation for our law enforcement officers and military troops who risk their lives to keep and defend our rights of life.

[Join in the conversation](#) to promote and organize a PAC in every neighborhood to help defend constitutional law and order with our law enforcement officers:

If you appreciate words of scripture as in Hebrews 2:15, "And deliver them who through fear of death were all their lifetime subject to bondage", you are invited to stand against the fear that leads to bondage and stand for liberty with other Americans by supporting the oath and the calling to service of our law enforcement officers and military troops. Without patriots who honor their Oath to keep the law, we get tyranny.

Americans who understand what liberty is are thankful for those patriots who have been willing to take [the Oath to stand in defense of the law of the Constitution](#). Every American should be willing to stand taller in support of the law of the Constitution and to stand taller for the cause of our American Declaration of Independence for which cause the Constitution was written. We regard with the highest respect those American patriots who honorably take the Oath and effectively pledge their mutual allegiance to the law of the Constitution and to defend the law of the Constitution in order that we might be secure in our independence and in our freedom from tyranny.

An [old army training manual](#) stated that our republic is better than what a democracy is because, our republic is ruled by constitutional law while a democracy is ruled by the vote of the majority which can lead to communism. Communism, socialism or democracy puts people into a condition of servitude to the state that receives power by vote. Without the people's respect for the law of the Constitution, we become slaves to state control which threatens to become the tyranny of Agenda 21 globalism.

If the democratic vote of the majority of a weak minded people, a people who have lost their faith including their sense of dependence on God, vote for dependence on the government treasury for their needs, the amount of public taxes and incidence of crime will inevitably increase. Socialism has always been force by government that takes from Peter to pay Paul. The economy eventually becomes unsustainable. Crime will increase. The social engineers, who worked for this collapse of our American society, will seize the opportunity to establish their oligarchy to enslave us. This is why the old army training manual said that a democracy leads to the tyranny of communism.

Many patriots, in serving the great cause of liberty, have taken the [solemn oath to uphold and defend the laws](#) of our Constitution when they become Law Enforcement Officers or join the United States Military.

One of the best ways to support these patriots is to give honor and celebration to the Law of our Liberty - the United States Constitution that they pledge by oath to defend.

*Independent American
Statement of Celebration and Support
for The United States Constitution*

We, the citizens of America, having a strong sense of the love for liberty, do support the laws of our United States Constitution. We celebrate and promote this law for America's Independence and Liberty. We celebrate the United States Constitution as the law and standard of our God given unalienable rights.

For over 230 years we have celebrated the independence and liberty that was won in the war for the Declaration of Independence. To preserve freedom for future generations, our Constitution was written. From that beginning, thousands have sacrificed in defense of this law. It is only through the vigilance of such patriots, who sacrifice their time and means for the cause of liberty, that our Constitution survives today as our law and standard of liberty.

The Constitution was written to be the supreme law of our nation, written to be our law for the defense of our liberty in times of peace and war. It is a celebration of liberty that should never be lost, not to the fear of terrorism or to any enemy.

Every American should understand the great sacrifices that have been made by those who have answered the call for the cause of liberty. When we stop to ponder and realize the sacrifices that have been made by our nation's patriots who have stood to defend our independence and liberty, it becomes infinitely more certain that our Constitution deserves just as much respect today as in any former time.

Our Constitution survives today for us to celebrate this long established fact, that those who are willing to sacrifice for the preservation of our independence and liberty do not sacrifice in vain.

We should always be able to celebrate our Constitutional rights of independence and liberty and the brave who make it possible, not only on the 4th of July and Memorial Day, but for 365 days a year. May that law forever stand as our standard of liberty in respect for our God given unalienable rights.

For this celebration, we unitedly support.

We support our Law Enforcement Officers and America's Military Troops by celebrating our Constitutional Laws of Liberty that they pledge by oath to defend.
